ABSTRACT

The four volumes of the 1988 Inventory of Academic Programs, developed by the Alabama State Commission on Higher Education, capsule an extensive variety of instructional programs offered by Alabama's 57 public institutions of higher education and the many private universities and colleges. Volume I includes information on public senior institutions and branch campuses. It provides a summary view of all programs offered for credit and culminating in an academic award as of June 1, 1988. The listing of each college and university offering a program is arranged according to the standard taxonomy developed by the National Center for Education Statistics' Classification of Institutional Programs (CIP). Following a list of Alabama's public senior institutions and of abbreviations of common degree designations, there is a taxonomy of instructional programs. Section A offers the inventory of public senior institutions, and Section B includes the inventory of public branch campuses. Each covers the CIP/field of study/program title, institution name, degrees offered, and accreditation/level. Appended is detailed information on accreditation and a listing of specialized accrediting/approving associations cited in the academic program inventory. (SM)

MEMORANDUM

TO: Users of the 1988 Inventory of Academic Programs

FROM: Joseph T. Sutton
Executive Director

The four volumes of the "1988 Inventory of Academic Programs" capsule an extensive variety of instructional programs offered by Alabama's 57 public institutions of higher education and the many quality private universities and colleges. Through the colleges and universities, the state of Alabama offers a wealth of educational opportunity.

The listing of each college and university offering a program is arranged according to the standard Classification of Instructional Programs (CIP) taxonomy.

The Inventory of Academic Programs is published annually by the Commission on Higher Education as a service to the state. We welcome your suggestions concerning improvements or changes that should be made to the publication.

I hope you find this year's edition useful. Please call on the Commission whenever we can be of assistance to you.

ACKNOWLEDGEMENTS

The staff of the Alabama Commission on Higher Education expresses its appreciation to the administrators of the public and independent institutions of higher education in Alabama and to the Alabama Department of Postsecondary Education (ADPE) for their assistance in providing and verifying the information contained in this report.

FOREWORD

The 1988 edition of the Inventory of Academic Programs provides a summary view of all programs offered for credit and culminating in an academic award offered by Alabama's public and private two and four-year colleges and universities as of June 1, 1988.

All data were submitted by the institutions and verified by the institutions and Commission staff. Program titles, levels of degrees offered, and accreditation status are listed for each program. A list of specialized accrediting agencies may be found in the appendix.

FORMAT. The inventory is published in four volumes: public senior institutions and branch campuses (Volume One); private senior institutions and branch campuses; private junior colleges (Volume Two); junior college linkage programs; public junior and junior college divisions of community colleges (Volume Three); public technical colleges and technical college divisions of community colleges (Volume Four).

CLASSIFICATION OF INSTRUCTIONAL PROGRAMS. All programs are classified according to a standard taxonomy developed by the National Center for Education Statistics (NCES), A Classification of Instructional Programs (CIP). This classification permits institutions of higher education with

diverse organizational structures to utilize a variety of program and course titles. It accommodates modes of operation common to a variety of institutions and facilitates comparisons of information through a taxonomy designed to permit comparability among institutions nationwide. (A guide to CIP categories is included in the table of contents.)

Generic Categories. Teacher preparation programs as approved by the State Department of Education (SDE) for certification are not listed individually. Rather, an institution offering one or more teacher preparation programs will have an entry in one of six generic categories: Early Childhood Education (13.1204); Elementary Education (13.1202), Junior High Education (13.1203), Teacher Education, Specific Subject Areas (13.1399), Education Administration, General (13.0401), and Special Education (13.1001). All other programs specified in the field of education (CIP 13) are non-teacher preparation programs. For a current inventory of State Board of Education approved programs, consult the Alabama Approved Teacher Education Programs published annually by the State Department of Education.

A summary of disciplinary categories in which degrees are offered by level follows:

	C	DIP	A	B	M	EdS	FP	D
Public Senior	36	-	49	815	478	131	6	194

APPENDIX

ACCREDITATION

Accreditation is the process whereby a nationally recognized agency or organization grants public recognition to a unit of an educational organization (school, institute, college, university, specialized program of study) indicating that it meets established standards of quality, as determined through initial and periodic self study and evaluation by peers. The essential purpose of the accreditation process is to provide a professional judgment as to the quality of the educational institution or program(s) offered and to encourage continual improvement by the institution.

The process of accreditation in which schools submit their institution or program for an objective third party review is voluntary. All accrediting agencies have similar review procedures which generally include an institutional self-evaluation report and a site visitation report developed by a team of external reviewers.

While there are no federal or state restrictions on the establishment of accrediting agencies or associations, these organizations may be formally recognized by one of two bodies: 1) Council on Postsecondary Accreditation (COPA) and 2) the U.S. Department of Education (USDE).

The Council on Postsecondary Education (COPA) established in 1975 is the national, nongovernmental organization that works to foster and facilitate the role of accrediting bodies in promoting and ensuring the quality and diversity of American postsecondary education. To achieve these objectives, COPA recognizes,

coordinates and reviews periodically the work of its member accrediting bodies.

The Secretary of Education, U.S. Department of Education, publishes a list of nationally recognized accrediting agencies and associations that the Secretary determines to be reliable authorities as to the quality of training offered by educational institutions or programs they accredit. The list is published for the purpose of determining institutional eligibility to receive funds under the Higher Education Act and other federal legislation.

Recognition by COPA and/or the USDE, however, is strictly voluntary, and some agencies which evaluate and "approve" or "accredit" programs may not seek recognition by either group, or may have sought such recognition and been denied. Some of these associations are viewed as legitimate. Others have been subject to criticism for conducting less than rigorous reviews.

A list of specialized accrediting/approving agencies which review programs in Alabama public and private institutions follows. Those agencies with COPA and/or USDE recognition have been so designated.

SPECIALIZED ACCREDITING/APPROVING ASSOCIATIONS CITED IN THE ACADEMIC PROGRAM INVENTORY

Abbreviation	Agency Name	Recognized By COPA	Recognized By USDE

ALABAMA COMMISSION ON HIGHER EDUCATION

Created by the Legislature in 1969, the Commission is charged with the responsibility of coordinating public higher education in Alabama.

The Commission is devoted to representing the citizens' higher-education interests to the Governor and Legislature, while at the same time faithfully presenting the needs of the colleges and universities to the state.

In carrying out its responsbilities to approve new programs, review existing programs, formulate an annual budget recommendation, coordinate student financial aid programs and chart long-range goals for higher education, the Commission matches the strengths of the 57 institutions with the state's available financial resources.

To ensure the decisions are made with an awareness of the educational and financial consequences, the Alabama Commission on Higher Education provides data; responds to inquires; conducts studies; and offers other assistance on higher education matters to the Governor, the Legislature, the institutions and the citizens of Alabama.

The Commission is composed of 12 members - 10 appointed by the governor, one by the lieutenant governor and one by the speaker of the House - who serve staggered nine-year terms.
